

Biosecurity in livestock production

Get up-to-date on the biosecurity aspects in livestock production with Biocheck's online training from 06 March till 18 April 2024.

Five sessions (+ one optional) from 2 to 4 PM CET, including theoretical principles, practical implementations and e-learning exercises.

REGISTER NOW

06 Mar '24	Biosecurity principles and the link with animal health & production
14 Mar '24	Practical implementation of external biosecurity measures
21 Mar '24	Practical implementation of internal biosecurity measures
28 Mar '24	Quantification of biosecurity on farm-level + (virtual) farm visit
11 April '24	<i>Persuade farmers to implement biosecurity measures: tips & tricks</i>
18 April '24	Evaluation and discussion

Each session will be accompanied by short e-learning modules to recap the gained knowledge. Price for the full training (all 5 sessions + e-learning modules worth €60) is €475. The session on persuasion of farmers (± 2.5 hours) is optional to the program and costs €145 separately or €110 when part of the training package. The training will finish with an exam (€110), for those that want a certificate. All prices are exclusive of VAT.
