BETTER

WG 4 activity

Jarkko Niemi, Tarmo Niine, Daniele De Meneghi, Ina Toppari, Anna-Maria Iatrou, Arvo Viltrop, Rreze Gecaj, Blerta Mehmeti, Ramazan Yildiz, Claude Saegerman, (Georgios Batikas)

Farmers' Perspective

Emphasizes understanding and integrating farmers' needs into training.

Certification & Quality Compliance

Ensures training effectiveness through evaluation and feedback.

Tailored Training Content

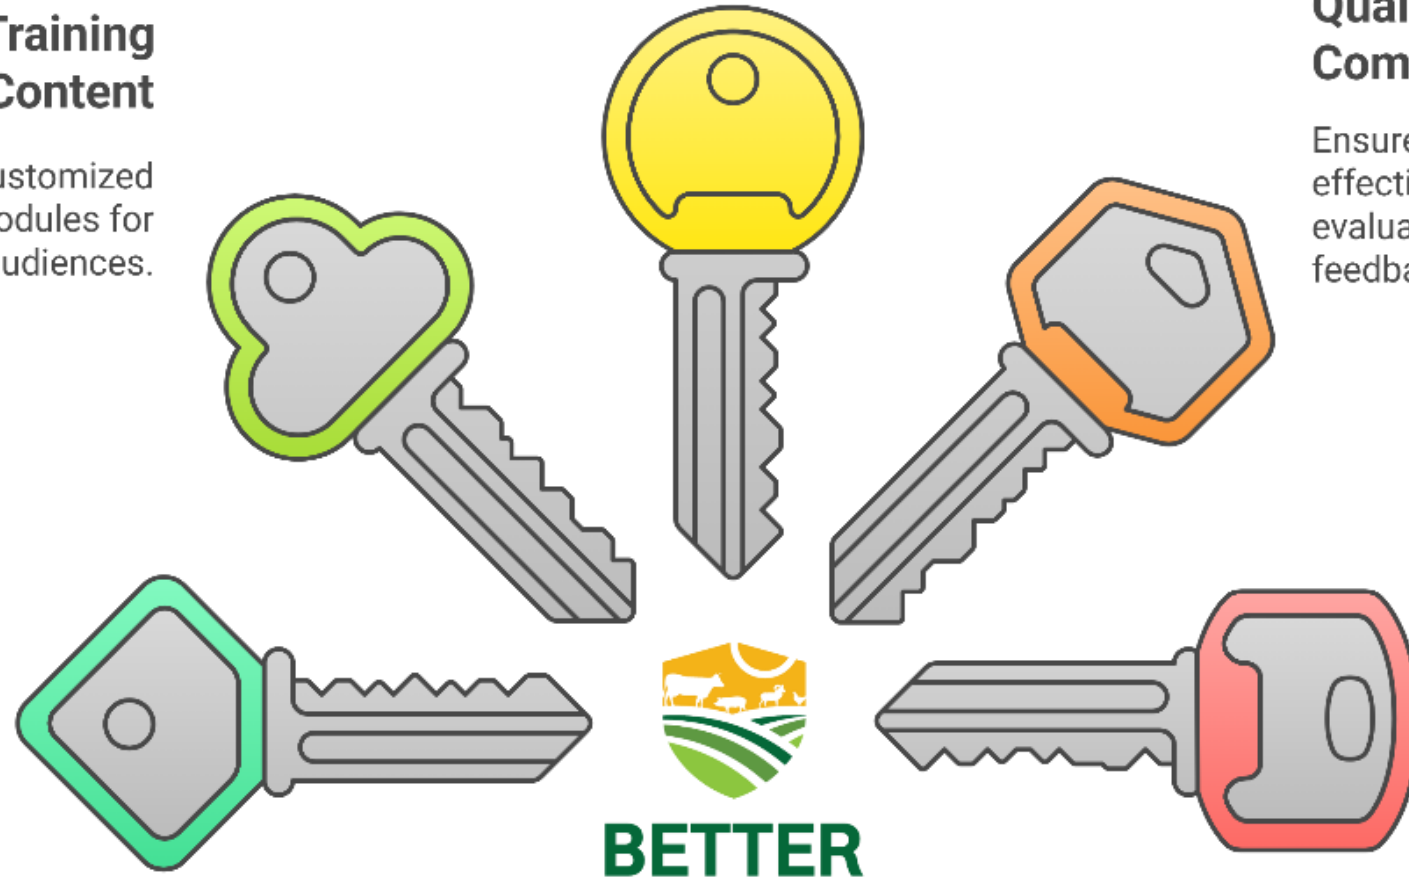

Provides customized training modules for different audiences.

Communication Skills

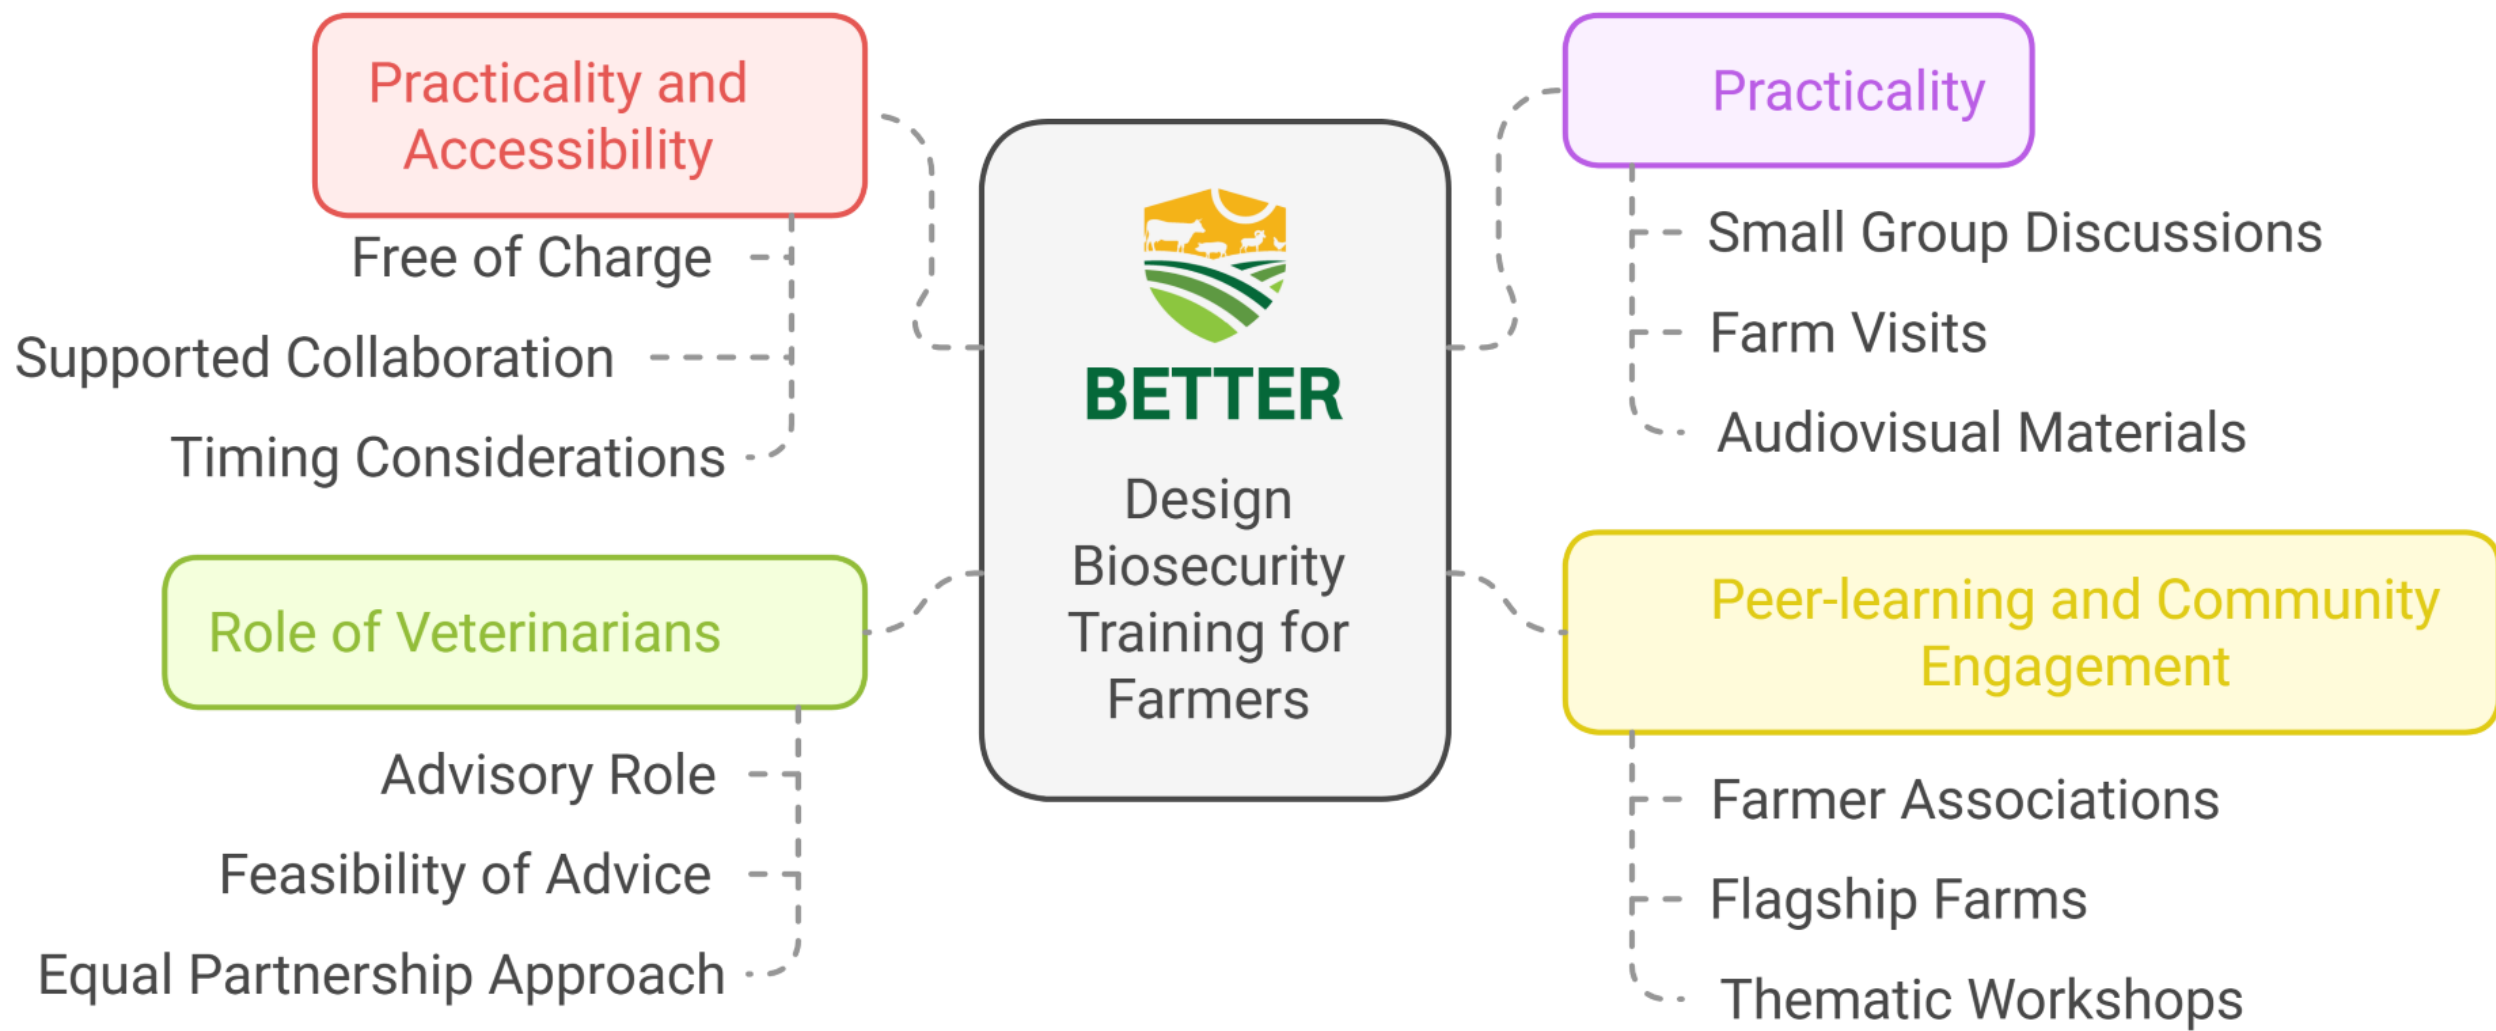

Focuses on enhancing interpersonal skills and networking among veterinarians.

Accessibility

Focuses on making training available to all, considering various backgrounds.

How to design a Biosecurity Training Course for veterinarians and farmers

The plan

- More detailed planning for a biosecurity training training for veterinarians and farmers
- Write an opinion paper that is based on the trainings paper.
- Validation of results.
- Possible submission as a "Teaching tip" to the Journal of Veterinary Medical Education
- This activity is related to task 4.5.
- Dissemination of BETTER results in each country.
